

## Atomic DNA

whirling unseen electrons  
atomic drift abound  
merging yet hesitant protons  
whirling unseen electrons  
dragging reluctant neutrons  
silent clashing sound  
whirling unseen electrons  
atomic drift abound

***Terrence Sykes** was born and raised in the rural coal mining area of Virginia. This isolation brings the theme of remembrance to his creations, whether real or imagined. He has been published in India, Scotland, Spain, Mauritius and the USA.*

**The Pangolin Review; Issue 5, 30 July 2018**
